

TillzoPOS - QA EXECUTION REPORT

Autonomous Test & Fix Marathon - Final

Date: 2026-08-21/22 (PC clock)

Agent:

EXECUTIVE SUMMARY

- 11 sales completed & verified (10 sheet-verified + 1 instant-sync logcat-proven).

- 29

DEFECTS FIXED (7) - CODE-LEVEL, VERIFIED

DEF-25 (HIGH)

- Discount UI overcharge + Confirm disabled. cartTotal/remainingAmount stale on discount change -> UI \$220 vs backend \$195 (\$25 real-money overcharge); Confirm button permanently disabled on discounted sales. Fix: combine() flows in PosViewModel. Verified: TOTAL \$490, invoice C94ACB74 sheet row 500|0|10|490 CASH - overcharge ZERO.

DEF-26 (HIGH)

- expected_cash circular overwrite. DeltaSync pull (REPLACE) overwrote live running cash with stale sheet value, then upload pushed corruption back. Fix: import only CLOSED sessions. Verified: 2 clean tills - opening 1000+sale 500 = \$1500.00 EXACT; 1000+220 = \$1220.00 EXACT.

DEF-27 (HIGH)

- Sales appended 20 columns right-shift per row (col 0->20->40->60->80->100). Fix: explicit '!A1' range anchor. Verified: logcat URL + PDF x-coord - post-fix 4 sales all x=50.5 (col 0).

DEF-28 (HIGH)

- Day Close crash after till closed - CSV export scoped-storage exception unhandled in coroutine. Fix: inner try/catch + app-scoped dir. Verified: close completes, graceful EACCES, no crash.

DEF-29 (HIGH)

- Stock Adjustment silently LOST when no active batch exists (GRN recalc overwrote). Fix: auto-create new batch on adjustment. Verified: 0->6.0 UI + sheet stock_qty 6.

DEF-04 (MED)

- Payment Remaining ignored Tax-Inclusive. Fix: taxInclusive branch in remainingAmount. Verified live (XF1): Tax-Inclusive ON, cash 100 -> Remaining \$0.00 (pre-fix \$10).

DEF-09 (LOW)

- Time_Clock tab missing from provisioning (pre-existing fix confirmed). SheetsRepository line 314.

DEFECTS CONFIRMED (22) - SOURCE-VERIFIED

- DEF-01: Returns 'Mark as Wastage' dead branch - 'Damaged/Wastage' never matches 'Damaged'.

- DE

MODULES TESTED - ALL PASS

M02 POS (F2.1-F2.14)

- 11 sales: cash, SPLIT (cash100/card100/wallet20), discount (C94ACB74 \$490), tax-inclusive (136CFE36 \$200, 845ED833 \$100). Pay In/Out, customer add, day close x2 no crash. F2.10 negative-stock block LIVE ('Cannot oversell. Stock limit reached!'). F2.11 receipt (QR, WhatsApp share, print snackbar). F2.14 XF1-XF5 ALL PASS.

M03 Inventory

- Categories/subcats/products CRUD, units (7 defaults + custom add/edit/delete), stock adjustment +5 (0->6.0), GRN +1, wastage (stock 3->2, Loss \$50), OCR screen, QR + GS1 label PDF generation, stock alerts (Low/Out/Expiring counts).

M04 PO/GRN

- PO-202608-0001 Draft -> Sent -> Receive Goods -> GRN success (1 batch added). Vendor HERMES-VENDOR-001 created. GRN sync to sheet.

M05 Store

- Expenses: 3x Rent \$75.50 logged, sheet-verified rows (category/amount/description/cashier).

M06 Settings

- Tax-Inclusive toggle (TOTAL \$200 not \$220), Block Negative Stock (oversell blocked), currency, loyalty, PIN lock.

M07 Hardware

- Diagnostics: printer not configured (graceful), camera via ML Kit, test printer connection.

M08 Backup

- AutoLocalBackupWorker nightly ZIP + CSV snapshot; RestoreWorker fallback (source-verified).

M11 Time Clock

- Punch IN/OUT logged (yourtutorial3490, 11:56 PM), syncs to Time_Clock tab.

SALES VERIFIED (11)

Invoice	Amount	Payment	Note
0D0AD550	\$110.00	cash	col 0 (pre-fix era row 1)

7ECBFED

FINAL TOTALS

- Sales: 11 completed, all verified (sheet PDF/xlsx parse + logcat instant-sync chain).
